 - **Database:** MySQL, MS SQL, Mongo DB
 - **Soft Skills:** Problem-Solving, Team Collaboration, Time Management, Adaptability, Attention to Detail
-

HIGHLIGHTED PROJECT

WEB-BASED BORROWING SYSTEM

2024

- User authentication for Faculty, IT Chairman, and Students.
- Real-time search filtering for quick access to records.
- Automatic email reminders sent to borrowers every 7:00 PM if they fail to return items by the expected due date.
- Borrow multiple items in a single request
- Entering a Student ID automatically fills in the name, course, year level, email, and phone number based on existing records, reducing manual input and errors.

Technology Used: Django (Python), HTML, CSS, Javascript, Bootstrap

Live Demo: <https://borrowingitem.pythonanywhere.com>

Crowdsourced Disaster Track System

2025

- Developed a web application using React and PHP to enable users to report hazards through an interactive map interface
- Implemented Google Sign-In for secure and easy user authentication.
- Integrated real-time tracking for monitoring active reports and incident updates.
- Built an admin dashboard for managing and reviewing reported concerns efficiently.

Technology Used: React.js, PHP, Firebase, Leaflet.js, Tailwind, OpenStreetMap

Live Demo: <https://crowdsourced-track.netlify.app/>

EXPERIENCE

Junior Programmer

July 2025 - Current

Symon System And Allied Services, Inc.

- Diagnose and debug both web and desktop applications, resolving system issues based on client requests
 - Conduct data migration, including conversion of old Chart of Accounts (COA) to new COA structures for accounting systems
 - Modify, optimize, and execute stored procedures in Microsoft SQL Server to resolve system issues and improve functionality
 - Updated accounting modules to ensure accurate Trial Balance, Income Statement, and Balance Sheet reports, maintaining balanced transactions
-

EDUCATION

Palompon Institute of Technology
